

Regional Integration: Europe, the Mediterranean

and the World economy

With over 3500 members,

ERSA is the largest regional science organisation in the world.

18 national and linguistic associations across the whole of Europe.

Members are scientists, researchers and policy professionals covering the fields of spatial economics and planning, regional, urban and local development and related issues.

The **ERSA network** is of great interest not only for governments at different levels, from local up to international organisations, but also for the private sector, civil society associations, and NGOs.

Its offer includes:

- Customised seminars, workshops and conferences
- Executive education and tailor-made training programmes
- Consultancy services and targeted advice and support
- Research programmes and projects

Welcome to ERSA Palermo 2013

ear Delegates and Guests, on behalf of the Local Organising Committee, I would like to welcome you to the 53rd European Congress of the Regional Science Association. For me, my colleagues and the University of Palermo it is a great honour to be part of such an important event.

When the final decision was taken, three years ago in Jonkoeping, we felt both the excitement and the responsibility to host such an important moment in the life of the European Regional Science Association. Since then, we have tried to carefully prepare for the event which is now ready to be celebrated.

For the third time, the ERSA congress takes place in Italy and, after Rome in 1984 and Milan in 1997, it now reaches the south, landing in Palermo, the capital of Sicily and the fifth largest city in Italy.

Beyond the attractiveness of the city and the region, which I hope you will enjoy, I believe the location of this year ERSA Congress has a special meaning. Italy, with its asymmetric regional development, has often been considered as a typical case-study in regional science, capturing the attention of international researchers and stimulating an extensive debate on regional development policies, such as investment in infrastructures, firm incentives, and institutional frameworks. In addition, given its location at the periphery of Europe and at the center of the Mediterranean, Sicily seems like the ideal location to discuss about regional integration, and to address the new regional, urban and spatial challenges emerged in the last few years.

In a rapidly changing global environment, researchers and policy makers have been forced to tackle new interesting questions and puzzles and search for solutions which have to be, at the same time, forward-looking, sustainable and feasible, given the current financial constraints.

Indeed, the spatial shift of the current world economy, as will be addressed by Prof. Danny Quah in the keynote opening lecture, is one of the main themes of the Congress.

A second important theme is the increased role of culture for regional development in the age of knowledge accumulation. This second theme will be analysed in the other two keynote addresses of the Congress, by

Welcome to ERSA Palermo 2013 •••• Welcome to ERSA Palermo 2013

Remi Jacob, President of the European Investment Bank Institute and by Prof. Masahisa Fujita, who shaped my personal regional science scientific profile during the doctoral years spent at the University of Pennsylvania.

Beyond the keynote addresses, the Congress will deal with other important policy themes in three plenary sessions focusing on the relationship between nation-wide policies and regional growth, the importance of regional and spatial issues in the Mediterranean and the role of infrastructure financing for regional development in the same area. The Local Organising Committee made great effort to bring researchers and analysts from the most important international institutions to discuss such themes with the most prominent regional scientists from Europe and the rest of the world.

The 53rd edition of the ERSA Congress will bring the international community to discuss, develop and refine new ideas about regional development. I am sure that the almost 850 papers presented by more than 900 participants from more than 50 countries will contribute considerably to the enhancement of our disciplines and will succeed in suggesting new insights to solve practical policy problems. I believe that the Palermo Congress will also have an important impact outside the scientific community of regional scientists by hosting, besides the regular sessions, 45 special sessions on different topics, often situated at the frontier of the discipline. The Congress will also host the 3rd European Meeting of the Urban Economics Association and, from an institutional point of view, will improve the fruitful collaboration of ERSA with the European Investment Bank as well as contribute to the development of regional science in the world, by favouring the constitution of new sections in the African continent.

I hope that you, Delegates and Guests, will enjoy the Social Events Program, centered on the Welcome Reception in the magnificent Palazzo Steri, the Rector's Building of the University of Palermo, the Get-together event in the beautiful beach of Mondello and the Gala Dinner in the pleasant Villa Malfitano in downtown Palermo. You will certainly enjoy walking around the city, by looking at monuments and nice spots to be impressed in your memory while tasting the delicious Sicilian food. We also prepared a diversified Technical Visit Program which includes a visit to two agroindustrial plants in Western Sicily, the tour of two ancient building of Palermo recently gone under restoration and the business incubator of the University of Palermo. Post-Congress tours offer various trips to admire the beauty of the island, going from its archeological sites to its spectacular beaches and sea locations.

I would like to express my gratitude to the many who made all this possible. In particular, the President of ERSA, Charlie Karlsson and the ERSA administrative staff, namely Maristella Angotzi and Richard Kelly, who supported the Local Organising Committee and accompanied it in overcoming the difficulties along the way. I also must thank Andrés Rodriguez-Pose, vice-President of ERSA and future President of RSAI International for the help in the organization of plenary sessions. The Italian Regional Science section also strongly supported the Palermo candidacy and organised a special plenary session to mark its thirty years of existence.

I must acknowledge the support of all the institutions and companies which have financially assisted the preparation and the realisation of the Congress, particularly for their determination in assuring me of the quality of the event despite their financial restrictions.

We also strongly benefited from the great support of our institution, the University of Palermo, and of its Rector, prof. Roberto Lagalla who closely followed all the steps in the preparation of the event. I must also give a special thanks to the administrative support team of the Faculty of Economics as well as to the University personnel in charge of organizational matters. In addition, I would like to give credit to the students of the Graduate Program in Economics and Financial Sciences who helped in contributing to the success of the initiative. Last but not least, I must acknowledge the enthusiasm of my younger colleagues of the Local Organization Committee, in particular of those who shared with me coordination tasks, who assisted me in this adventure, always proud to bring such an important event to Palermo.

Welcome to the 53rd ERSA Congress. I hope you will enjoy Palermo and will come back for other fruitful scientific events in the future.

Fabio Mazzola

Chairman of the Local Organising Committee, ERSA Palermo 2013 Dean, Faculty of Economics Professor of Economics University of Palermo

Town Planning Review has been one of the world's leading journals of urban and regional planning since its foundation in 1910. With an extensive international readership, TPR is a well established urban and regional planning journal, providing a principal forum for communication between researchers and students, policy analysts and practitioners.

TPR is edited from the Universities of Liverpool and Manchester (UK) and Clemson University (USA) and is supported by an international Editorial Board who resource the journal with a wealth of disciplinary and multi-disciplinary expertise.

Recent highlights include:

Trust and governance in regional planning by Malcolm Tait and Carsten Jahn Hansen

Surveillance, social control and planning: citizen-engagement in the detection and investigation of breaches of planning regulations by Neil Harris

The spatiality of housing market volatility and selective migration by Ed Ferrari and Alasdair Rae

LIVERPOOL

My Presidency at ERSA from 2008 to 2013

elected to be the new President of ERSA.

The autumn 2008 was an interesting time in the history of ERSA.

Critical decisions had been taken that ERSA should become a professional scientific organization. In addition, I started my presidency on January 1, 2009, by committing myself to implement efficient professionalism for ERSA. Firstly, Louvain-la-Neuve at CORE/UCL was chosen as the headquarters of the ERSA office. A licence for a professional Congress software was taken and a Congress Manager hired. On a legal point of view, the convention signed with the local organising committees, was revised legally. Many efforts were also made to develop ERSA corporate communication.

uring the ERSA Congress held in Liverpool in August 2008, I was

My years' congresses include Lodz, Jönköping, Barcelona, Bratislava and this year Palermo, not to mention the preliminary work for next year's congress in Saint Petersburg, and the kick-off planning for Lisbon Congress in 2015, due to take place in September.

I am very satisfied of the evolution of the organisation of our landmarks events. Following the conservative financial management of them and due the large number of participants in Jönköping and Barcelona, I am now proud to tell you that compared to 2009, ERSA will be in a better financial situation when I leave as president by the end of this year.

Congresses are the main ERSA events, but ERSA summer schools are also very important. Around 150 promising young regional scientists, mostly from Europe, participated the last five years. Moreover, we are proud of the good recognition of the high quality of the programme proposed to participants.

One ambition during the last five years has been to increase the cooperation between ERSA and other organizations with an interest in regional and urban research and policies. Since several years, we have a very good cooperation with the European Investment Bank (EIBJ, which among other things, has been involved in several summer schools and finances the EIB-ERSA prize in regional science.

Cooperation with the European Union and the OECD is progressing. We

have also tried to develop the ERSA congress to an umbrella for other related organizations including publishers to organize special sessions, events and exhibitions during the ERSA congresses. One positive example of this is the special sessions on urban economics within the ERSA congresses organised by the Urban Economics Association. Work is in progress here and I expect that we will see more of this at future congresses.

Another important ambition has been to strengthen the financial foundation for ERSA and in particular to find new partners (sponsors) willing to support a Europe-wide scientific organization. Although many steps forward have been made, we have not yet succeeded in reaching tangible results. I believe we should go on searching new forms of funding and hope that my successor will continue this difficult but crucial task for the future of the organization.

When my presidency for ERSA goes towards its end, I think I without hesitation can claim that ERSA today is a professional scientific organization with a well-functioning office at CORE/UCL. I expect ERSA and regional science research in Europe to grow stronger in coming years and that the footprint of ERSA in regional policy making in Europe will grow in coming years.

Finally, I want to thank my colleagues in the European regional science community, the EOC and ERSAC members and the staff at the ERSA office for trusting and supporting me as president of ERSA. I wish you all and ERSA in particular and its incoming president all the best for the future.

I also would like to thank Fabio Mazzola, chair of the LOC and his team for their two years of careful planning for the current Congress of which we are now enjoying the results.

Viva ERSA Palermo 2013!

Charlie Karlsson ERSA President

Natures Sciences Sociétés publishes articles dealing with all aspects of the relationship between man and nature, including human nature.

NSS is a publication from the association Natures Sciences Sociétés - Dialogues With the support of Cirad, CNRS, Ifremer, Inra, IRD and IRSTEA.

An interdisciplinary journal dealing with the relationship between man and nature.

A publication from the association Natures Sciences Sociétés Dialogues. *Natures Sciences Sociétés* publishes articles dealing with all aspects of the relationship between man and nature, including human nature. This may include representations of nature, its use, its transformation due to the biological, physical and chemical processes on which human life depends, and the consequences of these transformations and the manner in which man copes with them. These themes encompass a large number of disciplines (natural sciences, life sciences, sociology, engineering and research processes).

The interdisciplinary journal Natures Sciences Sociétés publishes original material in French and English. The journal accepts different kinds of material, the objective being to identify topical issues in a spirit of dialogue, monitoring and controversy, and to clarify problem statements while respecting their complexity, on the basis of rigorous scientific information and arguments.

Editors-in-chief:

Catherine Aubertin, economist Jean-Paul Billaud, sociologist Bernard Hubert, ecologist

How to reach the Congress Venue

By Congress Shuttle:

From the 28th to the 30th of August, the LOC has organized a shuttle service to and from the congress venue. The buses will lift congress participants at the given pick-up points located next to the congress hotels (transfer points to the Congress are indicated in the Congress map.) in time for the first session in the morning.

The shuttle bus arrangement can be done through the official travel agency (in case of hotel booking through the agency) or directly at the hotel (at a cost of $7 \in$ for three days). No shuttle buses will be arranged for the opening ceremony (its location is at a few minutes distance from many hotels).

By Public Transportation:

The Congress venue can also be reached by the city bus provided by AMAT. A 90 minute ticket costs € 1.30. Metro service is available from very limited locations and is provided by Ferrovie dello Stato (metro station for the Congress Venue: Palazzo Reale - Orleans)

Details of the service are in the Congress map. Please be aware that the bus and metro service may be reduced during the summer period.

By car_

There is a car parking reserved for the Faculty of Economics (100 places). During the congress period it will also be possible to park in other parking places nearby. All parking is located in the University area.

By train and bus from Palermo Falcone-Borsellino airport_

The Trinacria Express service connects in about 50 minutes the Airport of Punta Raisi with Palazzo Reale - Orleans station (1-2 trains for hour, ticket € 5.80, schedule on http://www.trenitalia.com/).

Shuttle buses connect the airport to the city centre in about 40 minutes $(\in 6.10)$ and run every 30 minutes from 06.30 to 24.00 (Prestia e Comandè, http://www.prestiaecomande.it/J.

Taxi and car rental services are also available at the airport.

By bus from Trapani Birqi airport

Shuttle bus services are available at the cost of € 10.60 one way.

4th ERSA Workshop

2013 Barcelona Workshop on Regional and Urban Economies:
Agglomeration Economies

November 28th-29th, 2013 Faculty of Economics and Business, University of Barcelona

ERSA Networking Area

It is located in the Building P (Edificio 19) at the University Campus (Viale delle Scienze).

Registration and Information Desks

The Registration Desk will be located in the main hall of the Building 19 (Edificio 19J. All delegates are invited to go to the Registration Desk to sign in and receive their badge and congress bag.

Should you have any queries about the congress and other practical information (computer room, map of the city, touristic information, taxis, restaurants, etc.), the team at the Registration and Information Desks is there to assist you.

RSAI-ERSA stand

Richard Kelly – ERSA Executive Director Maristella Angotzi – ERSA Conference Manager

Presentation

All rooms are equipped with a computer and a video projector. Delegates are required to bring their presentation slides on a USB stick.

Internet

Access to the Unipa wi-fi network is available in all areas of the university campus.

In the main bulding there is also a computer room (aula multimediale C) with LAN connection.

Access to the wi-fi network is personal and it is permitted with any operating system.

Participants will receive the login credentials at the registration desk.

Themes

Main theme of the congress

"Regional Integration: Europe, the Mediterranean and the World Economy"

Types of Sessions

Sessions for 2013

- 1- Refereed R-session Papers addressed to these sessions will be refereed by the theme convenors for each thematic topic. .
- 2 Refereed Y-session Papers are for Young Scientists. For these sessions, all co-authors of the paper should be less than 33 years old on 1st September 2013. The full papers will be refereed by the convener of the Young Scientists' Sessions. All authors will compete for the Epainos Award, which is awarded to the best paper presented in these sessions.
- 3 **Ordinary O-session** Papers addressed to these sessions are not refereed, but they will be included in the Conference USB stick / Pen drive, unless the authors choose otherwise.
- 4 **Special S-session** Papers for these special sessions may be refereed by the special session organiser, if he/she decides to do so.

General Themes

- R A. Agglomeration, districts, clusters and networks
- R B. Climate change and Environment, sustainability issues
- R C. Demography, migration and population
- R D. Entrepreneurship and innovation
- R E. Private and public finance for regional development
- R F. Globalisation and regional competitiveness
- R G. Housing markets, land use and real estate
- R H. Infrastructure, Transport and Communications
- R I. Knowledge economy and learning regions
- R J. Social capital and regional development
- R K. Regional labour market and labour mobility
- R L. New frontiers in regional science: Theory and Methodology
- R M. Peripheral and rural regions
- R N. Regional strategies and policies
- R O. Spatial Econometrics and analysis
- R P. Tourism, cultural and creative industries and regional development
- R_Q. Urban economy and governance
- R_R. Location theory and studies
- R S. Regional economic modeling

- R T. Regional cooperation and integration
- R_U. Spatial analysis in welfare and social issues
- R_V. The future of cohesion and regional policies
- R_W. Great recession, regional growth and resilience
- R_Z. Geographical information systems and spatial analysis
- R_ZA. Institutions and multilevel governance
- R ZB. Banking and finance in the Mediterranean regions

Journal awarded by the FECYT (Ministry of Science & Innovation) with the "Certificate of

Investigaciones Regionales

Asociación Española de Ciencia Regional Member of the European Regional Science Association

Investigaciones Regionales was created with one basic objective: to convert itself into a prestigious tool to bring to light high-quality works carried out in the broad academic and professional fields of regional, urban and territorial research. It was founded by the Asociación Española de Ciencia Regional (Spanish Regional Science Association). Evaluation procedures comply with international standards: all articles, notes and possible contributions submitted are subject to the review of an Editorial Board acting under scientific criteria, and requires, at least, two anonymous external evaluators before an acceptance is fulfill. The journal also counts on the assistance of a Scientific Council, comprising of well-known international experts.

Furthermore Investigaciones Regionales is a multidisciplinary journal. All contributions are welcome such as those generated from economics, geography, sociology, territorial planning, political science, etc. provided that their accuracy, originality and content help to strengthen the journal and increase its level of quality.

Nevertheless Investigaciones Regionales is hoping to become a basic reference within the field of Regional Science research. In order to do so the Editorial Board determines, articles of a high quality, and highlights those which provide methodological and general contributions aimed to a large readership, not only in Spain and other European countries, but also in Latin America.

Past issues have included articles on: Regional Disparities, Technology, European Union Enlargement, Regional Policy Instruments, Evaluation of Regional Policies, Transport, Infrastructures, Welfare Inequality, Labour Productivity, Services and Regional Development, etc. as well as articles referred to Brazil, Mexico, Perú and Argentina.

Some contributors: G. Hewings, M. Fujita, P. Krugman, R. Stough, R. Capello, R. Camagni, R. Vickerman, G. Beccattini, S. Boisier, C. Azzoni, M. Mas, F.J. Goerlich, J. Suriñach, R.J Stimson, J.R. Cuadrado, G. Garza, D. Azqueta, D. Audretsch, M. Callejón, J. Sutton, J. Paelinck, P. Burridge y A. Rodriguez-Pose.

Technical Visit 1

Restoration of ancient buildings: Palazzo Ajutamicristo and Palazzo Bonagia

Palazzo Ajutamicristo takes its name after Guglielmo Ajutamicristo. A banker of Pisan origins, who had grown wealthy over a few decades trading in Sicilian cheese and cereals. Tired of his castle in Misilmeri, he had long wanted to build a "Domus Magna," which would reflect his wealth and which would serve as an ornament for the city of Palermo.

The Palazzo, which originally dates back to the late 15th century, has been continuously expanded and modified throughout the centuries. Of particular interest is the frescoed ballroom ceiling representing "The Glory of the Virtuous Prince," painted by Giuseppe Crestadoro, which crowns the 200 sq. m. room leading to the flowered terrace. Palazzo Ajutamicristo is listed as a National Monument and belongs to the Italian Historic Houses Association.

Palazzo Bonagia, a Duke of Castelmirto's property, is located in the old town centre of Palermo. Though damaged, it is considered as one of the most remarkable demonstrations of the 18th century civil architecture in Palermo. In the 18th century Antonino Stella, Duke of Castelmirto, started the renewal and the enlargement of his 15th century palace, that was located between Monroy's Palace, princes of Pandolfina, and the no-more existing Santa Barbara La Soprana church. The front was built based on Nicolò Palma's drawings. The great stairway was built by Andrea Giganti with a precious red marble coming from Castellammare del Golfo and it is considered an authentic masterpiece because of its architectural and scenic refinement. It has been damaged after the second world war bombings but currently it has been restored thanks to the remediation works launched under the direction of the Palermo Authority for cultural sites. Visitors will be informed about the characteristics of the restoration intervention and about the recent use of the Palace as a stage for artistic events. The restoration of the building started in 2009 and benefited of EU support through Structural Funds. The main intervention will restore the original façade and the connection with the magnificent marble stairway.

Technical Visit 2

ARCA incubator

Together with the University of Palermo, the ARCA Consortium has set up a business incubator inside the University campus (Parco d'Orlèans) in order to assist innovative business initiatives in the start-up phase.

ARCA is a business incubator designed to boost the development of innovative business initiatives located in Palermo, through an integrated system of resources and services. The main objective of ARCA is to generate successful business which can come out of the support programme achieving independence and economic and financial soundness. The access to incubation services is reserved to new high-tech enterprises.

In addition to hosting newly established companies in fully equipped premises, ARCA provides a structured set of support services including strategic planning, marketing and administrative and fiscal assistance. The incubator is structured around a system consisting of shared rooms hosting staff (consultants, tutors, etc.J, meeting rooms, training classrooms and laboratories for product development and prototyping.

The visit will include a tour of the Incubator-Consorzio Arca and a presentation of the entrepreneurial educational platform of the University of Palermo.

Date & Time: August 29,4 p.m.
Duration: about 3 hours
Place: Palermo University Campus, bulding 16
Mode of Transportation: walking distance
Maximum number of participants: 50

Technical Visit 3

Tomasello Pasta plant

The Molino e Pastificio Tomasello S.p.A. is a company operating in the field of production of pasta since 1910 when the founder built a durum wheat mill. It is located in Casteldaccia, few kilometers from Palermo on a promontory facing the sea. It covers an area of about 20,000 sq. m. along Casteldaccia seafront. Nowadays the production process involves 6 production lines and its productive capacity is 2,500 quintals per day. The company has more than 60 employees. Tomasello pasta is a product achieved through continuous investment in technology. The Company achieved various quality control certificates and has defined its environmental policies with the aim of achieving the certificate of environmental management. The visit will consist in a short presentation and in a tour of the mill and the pasta production plant so to observe the production process starting from the grinding stage.

Date & Time: August 29, 3.30 p.m.
Duration: about 4 hours
Place: Palermo surroundings
Mode of Transportation: by coach from the congress venue
Maximum number of participants: 50

....

Technical Visit 4__

Anchovy and Tuna Packaging Plant

The Girolamo Balistreri & C. is a company operating in the field of anchovy and tuna packaging, since 1947. The Company is located in Aspra, a maritime village just few kilometers from Palermo. The Company has obtained the UE acknowledgment for the excellent quality of its products and is present both in the national and international markets. Inside the establishment, there is a unique "Anchovy Museum" and a photo exhibition on the history of Aspra and its maritime traditions. Every year the small museum is visited by people from all over the world. The entrepreneur will head the technical visit to the plant and the museum. He will overview old traditional and modern techniques of fishing and processing of anchovies. The visit will end up with a free tasting of the Company's products.

Date & Time: August 29, 3.30 p.m. Duration: 3-4 hours Place: Palermo surroundinas

Mode of Transportation: by coach from the congress venue

### A LIFE DEDICATED TO REGIONAL SCIENCE: PROF.DR. GÜNDÜZ ATALIK (1931-2013)

Prof.Dr. Gündüz Atalık died at his home in Istanbul on April, 30, 2013. He was the Founder and President of the Turkish Section of the Regional Science Association International and a professor emeritus of urban and regional planning at Istanbul Technical University. 50 years of his academic and professional life, started in 1963 at the Regional Planning Department,

Ministry of Housing and Construction and continued a Istanbul Technical University until 2013, was dedicated to regional science.

Professor Atalık was a prominent member of the regional science international community, fully devoted to the development of regional science in Turkey and within European Regional Science Association. Following the first and the second National Regional Science Congress in 1987 and 1989, he organized the 30th ERSA Congress in 1990 in Istanbul that has been one of the ever best organized ERSA Congress still a good memory in the minds of our regional science colleagues. He founded the Turkish Section of the Regional Science Association International in 1991 and he organized 12 National Congress of Regional Science between 1987 and 2010 that contributed a lot to the institutionalization of regional science in Turkey. He also established the Master Programme of Regional Planning at the international standards at Istanbul Technical University and he played a pioneering role in the development of regional studies in Turkey.

The RSAI owes much to him for his dedicated efforts to establish and develop the Turkish Section of the Regional Science Association International as well as for integrating it in large international networks. We all are thankful to him. His loss will be strongly felt by all the RSAI community and his long and substantial contribution and close friendship will be missed by all of us.

### Prof.Dr. Tüzin BAYCAN

Turkish Section of the Regional Science Association International Professor of Urban and Regional Planning, Istanbul Technical University

## **FIRST ANNOUNCEMENT**

# 5th CENTRAL EUROPEAN CONFERENCE IN REGIONAL SCIENCE - CERS

OCTOBER 5th - 8th, 2014 KOŠICE, SLOVAK REPUBLIC

### The 5th International Conference is organised by:

- The Department of Regional Science and Management, Faculty of Economics, Technical University of Košice
- The Department of Public Administration and Regional Development, Faculty of National Economy, University of Economics, Bratislava
- Slovak Section of the European Regional Science Association
- German speaking section of the European Regional Science Association

### Conference themes

- Impacts of cultural and sports events on development of cities and regions
- . The future of financing regional development
- SMART cities energetic solutions for the future
- Architectural and urban changes in Eastern European countries

### Conference sessions

- A. Tourism, cultural and creative industries and regional development
- B. Evolutionary economic geography; geography of banking and finance
- C. Peripheral and rural regions; private and public finance for regional development
- D. Creative and smart cities and regions
- E. Entrepreneurship, innovation and clusters
- F. Spatial econometrics and analysis; geographical information systems

The conference programme will be divided into thematic sessions. Besides keynote lectures and thematic sessions, a session for young scientists is planned for doctoral students and researchers up to 35 years old (i.e. they should be born in 1979 or after). The best papers of the young scientists will be awarded by the international jury.

Language: The official language of the Conference is English

Keynote speakers: Peter Nijkamp, Karima Kourtit, Free University of Amsterdam, Netherlands

Andrés Rodriguez-Pose, London School of Economics, United Kingdom

Simone Strambach, Philipps-Universität Marburg, Germany

Important deadlines: . Abstract submission before May 15th, 2014

Notification of acceptance of abstracts by May 31st, 2014

Registration from November 1st, 2013

Submission of full papers before September 1st, 2014

Publications: The Proceedings of the CERS conference will be submitted to the Conference

Proceedings Citation Index (ISI Web of Science)

Conference Contact: Iveta Korobaničová, Slávka Klasová

Tel.: + 421 55 602 3296, + 421 55 602 2476 - e-mail: cers@tuke.sk - web: www.cers.tuke.sk

# Brief information on the current situation related to Croatian regional policy in the fore math of its accession to the EU

and particularly the central government level, have also undergone extensive preparations for EU membership in the segment of regional policy in the past few years. Croatia is now a new EU member state. Among other areas, Croatia's institutions on all levels,

strengthened and capacitated institutions on the central government level which enabled the establishment of an appropriate institutional framework for the implementation of an effective The technical assistance in the framework of IPA assistance (particularly IPA Component I - Technical assistance and institutional building - IPA TAIB) resulted with the necessary regional policy. The main institution in charge of regional policy is the Ministry of regional development and EU funds (MRRFEU). More information is available on: <a href="http://www.mrrfeu.hr/">http://www.mrrfeu.hr/</a> default.aspx?id=866
